FORM
FTD SEP 63 0-329 (TDE) Previous editions of this form may be used.

Page 2

16. Tell in a few words the following things about the object.

a. Sound NO SOUND

b. Color light yellowish white

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

18. The edges of the object were

(Circle One)

- a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other

19. IF there was MORE THAN ONE object, then how many were there?

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

Page 6

22. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it.

23. In the following larger sketch place an "A" at the position the object was when you first saw it, and a "B" at its position when you last saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

Page 2

<p>25. Where were you located when you saw the object? (Circle One)</p> <p>a. Inside a building b. In a car c. <u>Outdoors</u> d. In an airplane e. At sea f. Other _____</p>	<p>26. Were you (Circle One):</p> <p>a. In the business section of a city? b. In the residential section of a city? c. In open countryside? d. <u>Flying near an airfield?</u> e. Flying over a city? f. Flying over open country? g. Other _____</p>
<p>27. What were you doing at the time you saw the object, and how did you happen to notice it?</p> <p><u>Walking down a street</u></p>	
<p>28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:</p> <p>28.1 What direction were you moving? (Circle One)</p> <p>a. North c. East e. South g. West b. Northeast d. Southeast f. Southwest h. Northwest</p> <p>28.2 How fast were you moving? _____ miles per hour.</p> <p>28.3 Did you stop at any time while you were looking at the object? (Circle One) Yes No</p>	
<p>29. What direction were you looking when you first saw the object? (Circle One)</p> <p>a. North c. East e. South g. West b. Northeast d. Southeast f. <u>Southwest</u> h. Northwest</p>	
<p>30. What direction were you looking when you last saw the object? (Circle One)</p> <p>a. North c. East e. South g. West b. Northeast d. <u>Southwest</u> f. Southwest h. Northwest</p>	
<p>31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North and also the number of degrees it was upward from the horizon (elevation).</p> <p>31.1 When it first appeared:</p> <p>a. From true North _____ degrees. b. From horizon _____ degrees.</p> <p>31.2 When it disappeared:</p> <p>a. From true North _____ degrees. b. From horizon _____ degrees.</p>	

39. Do you think you can estimate the speed of the object?

(Circle One)

Yes

☒ No

If you answered YES, then what speed would you estimate?

m.p.h.

40. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

☒ No

If you answered YES, then how far away would you say it was?

feet.

41. Please give the following information about yourself:

NAME

Last Name

First Name

Middle Name

ADDRESS

Street

City

State

Zip

TELEPHONE NUMBER

What is your present job?

Cutting grass

Age

13

Sex

Male

Please indicate any special educational training that you have had.

a. Grade school

b. Technical school

c. High school

(Type)

d. College

e. Other special training

f. Post graduate

42. Date you completed this questionnaire

34. What were the weather conditions at the time you saw the object?

34.1 CLOUDS (Circle One)

- a. Clear sky
 b. Hazy
 c. Scattered clouds
 d. Thick or heavy clouds
 e. Don't remember

34.2 WIND (Circle One)

- a. No wind
 b. Slight breeze
 c. Strong wind
 d. Don't remember

34.3 WEATHER (Circle One)

- a. Dry
 b. Fog, mist, or light rain
 c. Moderate or heavy rain
 d. Snow
 e. Don't remember

34.4 TEMPERATURE (Circle One)

- a. Cold
 b. Cool
 c. Warm
 d. Hot
 e. Don't remember

35. When did you report to some official that you had seen the object?

Day _____ Month _____ Year _____

36. Was anyone else with you at the time you saw the object?

(Circle One) Yes No

36.1 IF you answered YES, did they see the object too?

(Circle One) Yes No

36.2 Please list their names and addresses:

College Park
 Georgia

37. Was this the first time that you had seen an object or objects like this?

(Circle One) Yes No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

38. In your opinion what do you think the object was and what might have caused it?

August 3rd, 1965

Dear Sirs,

You may think a 13 year old boy like I am does not know anything about the UFO investigations. Maybe so, but I have read most of Major Heyhoe's books on the subject and have taken a special interest about the UFO's.

On the night of May 2nd, 1965 a friend of mine and myself were walking from my friend's house, (his name; [REDACTED], mine, [REDACTED]) to a service station to get a couple of Cokes when about halfway down the road when I spotted what I first thought was Echo II or I. This thought I abolished quickly, for I have observed them both and their speed was nothing to match with what we saw.

We both agreed that no airplane or jets could fly this fast at this altitude. (It was so very high we first thought the object was a star.) Our heads were moving with the object to keep up with it.

We saw no vapor trails, wings or any other definite shapes. There were no sounds to be heard.

all was quiet. We both watched and discussed it as long as it was in sight. There were no sudden turns or burst of speed. For about two and one half minutes we watched it till it disappeared behind a small cloud, while we were waiting for it to come from behind the other side of the cloud we discussed if it could have been a meteorite, but even I know a meteorite arches downward and does not rise, however the object did not reappear. It moved from southwest to southeast

P.S.

We were not imagining things. It was the last day of school and we were well, the last thing we would have thought about was "Flying Saucers."

I have enclosed a questionnaire from the book "Flying Saucers From Outer Space" and a photograph from the paper which looks exactly like the object we both saw. ([redacted] and I have 20/20 vision).

Mrs Hunt/man/SAFOICC/72842/3 Sep 65

Dear Mr. [REDACTED]:

SEP - 7 1965

This is in reply to your report of an aerial object which you were unable to identify.

Your sighting on the night of 2 May 1965 is characteristic of a satellite observation. In your diagram, you indicated that the object passed through about thirty degrees of arc before being obscured by a cloud. The duration, reported as 2 minutes 30 seconds, corresponds with the speed of a satellite.

We have checked the Echo and Pegasus schedules. Your sighting occurred midway between the passage of Pegasus I at 8:40 p.m., Echo I at 8:44 p.m. and Echo II at 9:45 p.m. These objects were heading in a southeasterly direction, the direction which you reported. There are more than thirty satellites and satellite components visible to the naked eye.

The books by Donald Keyhoe are considered to be science fiction by the Air Force.

I am enclosing a report on Project Blue Book, the Air Force project on unidentified flying objects. This report depicts the status of this project to date.

Sincerely,

COORDINATED By: Office Symbol, Name, Grade, Date **Signature**

REPLY TO
ATTN OF: TDEW

SUBJECT: UFO Sighting, College Park, Georgia, 2 May 1965

27 AUG 1965

TO: Hq USAF SAFOICC (Mrs Hunt)
Wash D C 20330

This office is in receipt of an unidentified flying object report from L. [REDACTED], [REDACTED], College Park, Georgia. The following is a suggested reply:

a. Dear Mr [REDACTED]

The sighting on the night of 2 May 1965 is characteristic of a satellite observation. In your diagram you indicate that the object passed through about thirty degrees of arc before being obscured by a cloud. The duration, reported as 2 minutes 30 seconds, is about the speed of satellites.

We have checked the Echo and Pegasus schedules and your sighting occurred midway between the passage of Pegasus I at 840 pm, Echo I at 844 pm and Echo II at 945pm. These objects were heading in a southeasterly direction, the direction which you reported. There are more than thirty satellites and satellite components visible to the naked eye.

We agree that the object could not have been a meteorite because of the reported duration.

The attached brochure depicts the results of the Air Force program on the subject of unidentified flying objects.

The Air Force regards the books by Donald E Keyhoe on flying saucers as science fiction.

8. IF you saw the object at NIGHT, TWILIGHT, or DAWN, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One)

a. None ☒ b. A few ☒ c. Many ☐ d. Don't remember ☐

8.2 MOON (Circle One)

a. Bright moonlight ☒ b. Dull moonlight ☐ c. No moonlight — pitch dark ☐ d. Don't remember ☐

9. Was the object brighter than the background of the sky?

(Circle One) a. Yes ☒ b. No ☐ c. Don't remember ☐

10. IF it was BRIGHTER THAN the sky background, was the brightness like that of an automobile headlight? NO

(Circle One) a. A mile or more away (a distant car)? ☐ b. Several blocks away? ☐ c. A block away? ☐ d. Several yards away? ☐ e. Other ☐

11. Did the object

(Circle One for each question)

a. Appear to stand still at any time?	Yes <input type="radio"/>	No <input checked="" type="radio"/>	Don't Know <input type="radio"/>
b. Suddenly speed up and rush away at any time?	Yes <input type="radio"/>	No <input checked="" type="radio"/>	Don't Know <input type="radio"/>
c. Break up into parts or explode?	Yes <input type="radio"/>	No <input checked="" type="radio"/>	Don't Know <input type="radio"/>
d. Give off smoke?	Yes <input type="radio"/>	No <input checked="" type="radio"/>	Don't Know <input type="radio"/>
e. Change brightness?	Yes <input checked="" type="radio"/>	No <input type="radio"/>	Don't Know <input type="radio"/>
f. Change shape?	Yes <input type="radio"/>	No <input checked="" type="radio"/>	Don't Know <input type="radio"/>
g. Flicker, throb, or pulsate?	Yes <input type="radio"/>	No <input checked="" type="radio"/>	Don't Know <input type="radio"/>

12. Did the object move behind something at anytime, particularly a cloud?

(Circle One) a. Yes ☒ b. No ☐ c. Don't Know ☐ IF you answered YES, then tell what it moved behind: cloud

13. Did the object move in front of something at anytime, particularly a cloud?

(Circle One) a. Yes ☐ b. No ☒ c. Don't Know ☐ IF you answered YES, then tell what it moved in front of: _____

14. Did the object appear: (Circle One) a. Solid? ☒ b. Transparent? ☐ c. Don't Know ☐

15. Did you observe the object through any of the following?

a. Eyeglasses	Yes <input type="radio"/>	No <input checked="" type="radio"/>	e. Binoculars	Yes <input type="radio"/>	No <input checked="" type="radio"/>
b. Sun glasses	Yes <input type="radio"/>	No <input checked="" type="radio"/>	f. Telescope	Yes <input type="radio"/>	No <input checked="" type="radio"/>
c. Windshield	Yes <input type="radio"/>	No <input checked="" type="radio"/>	g. Theodolite	Yes <input type="radio"/>	No <input checked="" type="radio"/>
d. Window glass	Yes <input type="radio"/>	No <input checked="" type="radio"/>	h. Other	<u>NO</u>

Form A

U. S. AIR FORCE TECHNICAL INFORMATION SHEET	
<p>This questionnaire has been prepared so that you can give the U. S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.</p>	
<p>1. When did you see the object?</p> <p>Day <u>2</u> Month <u>5</u> Year <u>65</u></p>	<p>2. Time of day <u>9</u> <u>15</u></p> <p>Hour Minute</p> <p>(Circle One): A.M. or <u>P.M.</u></p>
<p>3. Time zone:</p> <p>(Circle One): a. <u>Eastern</u> b. Central c. Mountain d. Pacific e. Other</p>	<p>(Circle One): a. Daylight Saving b. Standard</p>
<p>4. Where were you when you saw the object?</p> <p><u>College Park Georgia</u></p> <p>Nearest Postal Address: City of Town State or Country</p> <p>Additional remarks:</p>	
<p>5. Estimate how long you saw the object:</p> <p>Hours <u>2</u> Minutes <u>50</u> Seconds</p> <p>5.1 Circle one of the following to indicate how certain you are of your answer to Question 5.</p> <p>a. <u>Certain</u> b. Fairly certain c. Not very sure d. Just a guess</p>	
<p>6. What was the condition of the sky?</p> <p>(Circle One): a. Bright daylight b. Dull daylight c. Bright twilight d. Just a trace of daylight e. No trace of daylight f. Don't remember</p>	
<p>7. IF you saw the object during DAYLIGHT, TWILIGHT, or DAWN, where was the SUN located as you looked at the object?</p> <p>(Circle One): a. In front of you b. In back of you c. To your right d. To your left e. Overhead f. Don't remember</p>	

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

21. IF POSSIBLE, try to guess or estimate what the real size of the object was in its longest dimension, feet.

22. How large did the object or objects appear as compared with one of the following objects held in the hand and at about arm's length?

(Circle One)

a. Head of a pin

b. Dime

c. Nickel

d. Quarter

e. Half dollar

f. Silver dollar

g. Baseball

h. Grapefruit

i. Basketball

j. Other

22.1 (Circle One of the following to indicate how certain you are of your answer to Question 22)

a. Certain

b. Fairly certain

c. Not very sure

d. Uncertain

23. How did the object or objects disappear from view?

Went behind cloud and did not reappear.

24. In order that you can give as clear a picture as possible of what you saw, we would like for you to imagine that you could construct the object that you saw. Of what type material would you make it? How large would it be, and what shape would it have? Describe in your own words a common object or objects which when placed up in the sky would give the same appearance as the object which you saw.
